

Totaled

*Driving down that highway of love
Got the top down on the old used Corvette
enjoying the sky above*

*Got distracted and hit a bump or did the
bump hit me
You see he and I had a few scratches and
dents none too noticeable to see
Never felt a need to fix or repair them it was
sufficient to let it be*

*But when that car hit something or
something hit me
My engine felt pain because the wreck
included three
Love Insurance was my company*

*My fate was out of my control
Love Insurance had to respond with fixin' it
or totaling my sole*

*Love Insurance sent Unsure Tow Truck to
pull it into the repair shop
Here my heart was to heal at this paltry
little stop*

*I'm here to get a new paint job, to get new
shining wheels
To replace my crushed chrome heart
So once again I can feel*

*Love Insurance declared my heart was
totaled out
Here comes a big new car note rest assured
without a doubt*

*But all isn't lost because a new car always
smells good
And at least in the beginning, it always does
what it should*

*My new car reminds me that I can get
through it when I never thought I could
Right there from beginning to end there by
my side the Lord stood*
